THE DOHENY EYE INSTITUTE
The Doheny Eye Institute is an internationally recognized, non-profit charitable enterprise dedicated to the conservation, improvement, and restoration of human eyesight, guided by three objectives: increase knowledge of the human eye and its diseases through research, apply this increased knowledge to patient care, and transmit this knowledge to the public through education, training, and community service. As a donor, your donation will play an integral role in supporting the ongoing critical vision science research and development at the Doheny Eye Institute.
ABOUT THE LUMINAIRES JUNIORS
The Luminaires Juniors is a women's group solely dedicated to assisting the Doheny Eye Institute in meeting its commitment to eye research and eye health through fundraising and volunteer work. www.luminairesjuniors.org

Contractor Development
Launching BAPLA 2.0
We are excited to announce BAPLA 2.0. BAPLA was established to serve in concert with the City's objective of increased inclusion and opportunity for small local, minority and woman-owned contractors. Over the course of the program's first nine years, BAPLA has identified the specific challenges faced by the small contractor community. Although bond underwriting and bonding capacity inherently covers a wide spectrum of a contractor's business status, BAPLA 2.0 will provide additional technical support and resources to contractors of all levels. Using new and more comprehensive assessment tools, a broader range of technical assistance, and added project support- BAPLA 2.0 will go beyond bonding and emphasize Contractor Development.
